

Change form for Death benefit before the retirement date

We would like to receive a fully completed change form. Only then can we process your change. After processing your change, we will send you a confirmation.

If you have several pension schemes at Nationale-Nederlanden, send a change form for each scheme.

2 My change

I would like to communicate the following change (1 option possible):

- Option 1:** I have a partner, but I don't or no longer want the value of my investments to be available to my partner and/or children under the age of 30 if I die before the retirement date. My retirement pension will increase as a result. Remember! Your partner must agree to this and sign this form with you. Only if your partner agrees, we will adjust your choice for an Anw shortfall pension.
- Option 2:** I have a partner. I would still like a benefit for my partner and/or children under the age of 30 if I die before the retirement date. In that case, 90% of the value of my investments will become available to them. My partner and/or children must buy a pension benefit from this value. My retirement pension will decrease as a result.
- Option 3:** I don't or no longer have a partner, but I do want a benefit for my children under the age of 30 if I die before the retirement date. In that case, 90% of the value of my investments will become available to them. My children must buy a pension benefit from this value. My retirement pension will decrease as a result.
- Option 4:** I do not or no longer have a partner and/or children under the age of 30. For this reason, I do not wish to arrange a death benefit before the retirement date. My retirement pension will increase as a result.
- Option 5:** I don't or no longer have a partner, but I don't or no longer want the value of my investments to be available to my children under the age of 30 if I die before the retirement date. My retirement pension will increase as a result.

I am a member of the pension scheme and my choice applies to:
