

Valid from 1 January 2025

Overview of the reimbursements in 2025

This package comparer provides an overview of the reimbursements for basic insurance Zorg Vrij and supplementary insurance for 2025. It is an easy way to compare the different types of insurance. Only the insurance policies that can be taken out in 2025 are included.

Basic insurance

The government determines the reimbursements under the basic insurance plan. Nationale-Nederlanden has made agreements on rates with most healthcare providers. Nationale-Nederlanden reimburses in full the bill you receive from these healthcare providers. Do you go to a healthcare provider with whom Nationale-Nederlanden does not have an agreement, we will also reimburse the bill in full, unless it concerns the costs of Physiotherapy, Mental Health Care (GGZ) or District Nursing (Wijkverpleging) from non-contracted care providers. Then we reimburse a maximum of 75%. Very occasionally, however, we receive a bill from a healthcare provider that is unreasonably high. We are prohibited by law from reimbursing such a bill. Fortunately, this almost never happens. When you see '100%' in the package comparer, it means that this type of healthcare is insured. In the columns headed 'excess' and 'personal contribution' you will see whether the insured care will be set off against any amount outstanding on your excess or whether you have to pay a personal contribution on top of you excess. Your excess is € 385 in 2025. Only insured persons aged 18 and older pay the excess. The government fixes the amount of the compulsory excess and the personal contribution, which are independent of one another.

Supplementary and dental insurance policies

If you would like more extensive coverage for certain elements of healthcare, you can opt for a supplementary insurance policy, with or without dental care. All amounts in the supplementary insurance policies are maximum amounts that apply per insured person per calendar year, unless otherwise stated. In every case, the healthcare provider/institution must be recognised by Nationale-Nederlanden.
