## Pillar III

### Introduction

The Pillar III disclosures are prepared in accordance with the CRR and CRD IV as required by DNB. The CRR and CRD IV are legally enforced by Dutch law under Wft (Financial Supervision Act). The NN Bank Disclosure Committee, responsible for all NN Bank disclosures, assesses the accuracy of the content before reporting to the NN Bank Supervisory Board for final approval. This report has not been audited by NN Bank's external auditor.

### Regulatory framework

#### Basel Committee on Banking Supervision (BCBS) Revised Pillar III framework (RPF)

With respect to market information disclosures, the Basel Committee on Banking Supervision (BCBS) announced in 2014 its ambition to revise and consolidate the Pillar III disclosure requirements. It started as a two-phase programme but was extended with a third phase in 2017 to include disclosure requirements arising from the Committee's ongoing finalisation of the Basel III reforms. The revised Pillar III framework (RPF) is the result of an extensive review of Pillar III reports, in which the existing Pillar III disclosure requirements are superseded. The result applies to internationally active banks at the highest consolidated level.

#### EBA guidelines on disclosure requirements

In order to be legally binding, the RPF templates need to be transposed for European institutions into EU requirements by EBA as per Part Eight of EU Regulation No 575/2013 (EBA GL/2016/11). Within the Guidelines, the EBA adjusted the Revised Pillar III templates to include EU specificities, for instance in terms of exposure classes or concepts used, to fit the CRR requirements and to eliminate redundancy between the RPF and the CRR requirements. The EBA guidelines should therefore be seen as specifications of the existing CRR disclosure requirements, rather than a completely new set of requirements. The EBA guidelines apply from 31 December 2017 and largely apply only to G-SIIs and O-SIIs.

Although NN Bank is not required to follow most of the RPF or EBA guidelines for Pillar III disclosures, it chooses to provide Pillar III disclosures to provide further insight into its risk profile as appropriate. Several additional disclosures are made of NN Bank's own accord with a view to providing a deeper understanding of the Bank's risk position. Please find below the navigation tables to help find the disclosures of interest.

NN Bank's RWA is composed of RWA for credit risk and operational risk. NN Bank does not have a trading book, and therefore no RWA for market risk is required under Pillar I. The RWA for operational risk is based on the Standardized Approach.

## Liquidity and Funding

This section jointly addresses requirements and recommendations around Liquidity and Funding, with the former subject to EBA and BCBS guidelines which are addressed through relevant templates below. Additional disclosures around Funding are made voluntarily.

### Liquidity buffer (Additional disclosure)

Liquidity risk is defined as the risk that NN Bank cannot refinance its assets against a reasonable price (funding liquidity risk) or cannot meet its financial liabilities when they come due, at reasonable cost and in a timely manner (market liquidity risk).

NN Bank aims for prudent liquidity risk management, to ascertain that sufficient liquidity is maintained in order to ensure safe and sound operations in all circumstances. NN Bank maintains a liquidity position with conservative internal targets and a robust liquidity buffer. On a daily basis, the liquidity position has to be sufficient to meet NN Bank's short-term obligations. The position is managed by maintaining sufficient liquid investments and the capacity to generate additional cash.

Sources that have a predictable value and that can be transferred to cash within a short period of time are part of the internal liquidity buffer. The internal liquidity buffer consists of:

- Unencumbered eligible assets: all eligible assets for ECB standing facilities (excl. emergency facilities)
  - Investment portfolio
  - Retained RMBS notes
- Warehouse facilities (unused portion)
- Committed credit lines (unused portion)
- Cash/balance bank account

### Funding strategy (Additional disclosure)

NN Bank is a retail mortgage bank funded largely by customer deposits.
